

Eco-Rain 5 Panel Tank Systems

ASSEMBLY OF SINGLE & MULTIPLE ECO-RAIN TANKS

SINGLE TANK ASSEMBLY

- 1** Install large pegs of one small plate into holes of one side plate.

- 2** Install large pegs of the second, third, and end small plates into holes of the side plate.

- 3** Place and align the second side plate on top of the small plates.

- 4** Rotate the tank such that the side plates are now on the sides and the top and bottom are open.

- 5** Place and align a large plate with the pegs of the vertical small plates. Use a 2x4 and a dead weight hammer to tap the large plate into place.

- 6** Turn the tank upside down. Place and align the second large plate with the pegs of the vertical small plates. Use a 2x4 and a dead weight hammer to tap the large plate into place.

MULTIPLE TANK ASSEMBLY

- 1** Repeat Steps 1 through 5 for Multiple Tank Assembly.

- 2** Turn the tank upside down. Align the tank (with one open end) over a complete tank for Double Tank Assembly.

- 3** Use Multiple Tank Assembly Steps 1 and 2 for Triple, Quad and Pent Tank Assemblies. Check for full pin insertion and re-tap if necessary.
